BACKLASH
(Commentary from the Board of Directors)

**June Membership Meeting – Angling for Cobia
by Danny and Buddy Noland**

VAC Members Buddy and Danny Noland will present at the June VAC Membership Meeting a program about angling for cobia. The tackle and bait to use, proven techniques to hook, and likely places to find these energetic fish will be well covered. Got a buddy who likes to cobia fish? Bring him along. He will enjoy the program too.

**VAC Renews IGFA Membership;
Support of VA Costal Reserve**

The Virginia Anglers Club has maintained a club membership (vs. an individual membership) in the IGFA for many years. The Club has also supported the Virginia Coastal Reserve of the Nature Conservancy. By a unanimous vote, the board members present at the June BOD Meeting voted to continue the membership and support for another year. Treasurer Fred Cousins will issue the appropriate checks.

July Flounder Tournament and Cookout

Bill Barnett has opened his house on the Bay to the Virginia Anglers Club for a cookout following the Saturday session of the Virginia Flounder tournament scheduled for July 15th and 16th. This will be the only social gathering for the club (other than the Awards Banquet) in 2006. The Board of Directors encourages all members to support the tournament and participate in the cook out. If your schedule does not permit fishing, you can still come to the cookout and enjoy the fellowship. Directions and the starting time for the cookout are found elsewhere in this newsletter.

For the Leadership of the Virginia Anglers Club,
John Wetlaufer, Sr.

CATCHY COMMENTS
by Danny Noland

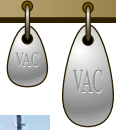

It appears that we are starting to get a break from the cool, windy conditions that have plagued the fishing this spring, being replaced now by warm, windy conditions. The entry cards for Freshwater entries has dwindled to almost nothing, but the Saltwater entries have just started to slowly begin arriving.

The **Angler of the Month** competition was won by **Fred Cousins** with a 1st place entry for a brook trout from Johns Creek, 2-6 on 2# fly for 339 points. Fred also took 2nd place with a 7-10 gar on 2#gen for 221 points and **Scott Johnston** took 3rd place with a 1-4 croaker on 2# fly for 208 points. The 1st and 2nd place finish for May moved Fred into the lead for the C.V. Kinnard award competition. These three cards were the only entries for the Angler of the month, so get your cards turned in at the meeting.

In freshwater, **Mike Ostrander** reported in late May that the James River Park System has been producing some outstanding catches of flathead and blue catfish, with some flatheads going up to 33 pounds. Mike tested his skills on 4#, but the catfish won that battle. Better luck next time Mike.

Jeff Doughty wanted to prove that a fishing trip doesn't take a lot of planning, like most of us

think. While riding home one afternoon, he stopped by a small bridge crossing the Nottoway River in the Stoney Creek area. Looking over the bridge, he spotted 2 nice smallmouths below the bridge, went to the truck, grabbed a rod, stood on the bank and on his 1st cast, caught a 1-2 smallmouth on 2# plug for 112 points to take over the species lead for smallmouth bass. When I joined the VAC in 1982, the Norfolk Lakes were the area that produced a lot of the freshwater specie winners each year. It seems that these lakes have been forgotten by VAC members, until Jeff got his boat permit for this chain of lakes this year, and on his first trip to Western Branch, caught a 1-3 yellow perch on 2 plug for 312 points, which has taken over the freshwater plug division lead. Nothing to this freshwater fishing, right Jeff!

Fred Cousins took a trip to the Chickahominy River to catch a 7-10 gar on 2 gen for 221 points. I'm sure we will be hearing something soon from **Eddie Johnston** about gar, once he ventures out to his gar hole.

Ricky Dale, Buddy and Danny Noland spent a week in Hatteras in early June for what was going to be a week of offshore action and some wreck fishing. The week started off pretty good on Sunday, with numerous chances for cobia on some wrecks near Diamond Shoals. The only two that we were able to land and release were by **Ricky**, 29" and 31" fish, which were under the NC limit. We saw some big cobia, but had trouble getting the big ones to eat.

Bruce Henderson and **Jim Sheffield** tried the cobia later in the week, but the action had slowed down due to rough seas and sight casting was out of the question. The best catches for the week was a new club record and specie leading triggerfish, 5-4 on 6# spin for 172 points for **Buddy**, a 15-4 amberjack on 8 plug for 169 points for **Ricky**, and a 44-0 shark on 12# plug for 110 points and a new club record and species leader for **Danny**. These catches will soon be beaten as the wreck fishing is just beginning for the summer.

Glenn Carter took the species lead for spot at Oregon Inlet with a 0-10 on 4# fly for 215 points. **Scott Johnston** tested the spot waters of the Piankatank River and came away with a new club record spot, 0-10 on 8# fly for 138 points. Scott also entered a club record flounder with a 1-8 on 2# fly for 156 points. Scott also had other spot and flounder entries on fly.

Dr. J. C. Wright finished out the entries for the month for citation catches for channel bass, black drum, and a 86-0 bluefin tuna.
