We will meet at 6:30 PM to accommodate Steve's need to return to his home in western Virginia as early as possible for a busy day on Wednesday. Steve will present his program first, followed by the business portion of the meeting.

TOURNAMENT RESULTS – FIRST ANNAL VAC OPEN ALL SALT WATER AND FRESH WATER SPECIES

October 17 & 18, 2015 Local Sun Up to Sun Down, Each Day

(No Entries Received)

Steve Fetrow

Working a summer job 43 years while pursuing a degree in Business Administration at Florida Southern College, Steve sustained a Spinal Cord Injury as the result of a three-story fall. Steve's previous love of competitive wheelchair sports has now turned toward recreational fishing. Catches reported on Steve's

membership application are three freshwater species and seven saltwater species, five of which were caught in Florida. Steve broke the one rod he brought on a fishing trip on the Jackson River. Using a borrowed rod, Steve silenced the hassle he got for bringing only one rod by catching the largest rainbow trout of the day. Steve enjoys fresh and saltwater fishing from river to pier to boat (when accessibility permits). As a member of the VAC, Steve is anxious to learn new angling techniques and locations. Steve is a dedicated CPR angler, Catch-Photograph-Release. Steve moved to Virginia from Florida 32 years ago and lives in Manakin Sabot with his wife, Donna, of 23 years. Steve retired after a long career with General Electric and was president for 6 years of the non-profit Spinal Chord Injury Association of Virginia.

SUGGESTIONS FOR ANGLING RULES, BASIC WEIGHT, ETC. CHANGES NEEDED BY THE ANGLING RULES COMMITTEE

If you have any suggestions for changes in the VAC Angling Rules or other items such as but not limited to Basic Weights, catch reporting, tackle requirements, the catch data base, etc. please send them to Angling Rules Chairman Stuart Lee at (stulee37@gmail.com). Stuart will soon be calling the Angling Rules Committee together for their annual review of the VAC's Angling Rules. The Angling Rules Committee is made up of VAC Members who are experienced and active anglers and who have fished for many years in both freshwater and saltwater.

FORMER VAC MEMBER JOHN ARCHER PASSES

Former Virginia Anglers Club Resident Member John Aldwin Archer, Jr. pulled lines on Wednesday, September 30, 2015. John was an active member from the mid-80s thru the mid-90s. His entries include four freshwater species and five saltwater species; his angling activity went far beyond what he entered via Entry Card. John leaves three club records that have not been beaten in over 30 years: a 2-7 crappie on 2# spin, a 4-4 taug on 4# general and a 14-3 weakfish on 8# plug. John will be remembered by many VAC Members who worked with John at Dupont.

"Catchy Comments"

By Stuart Lee

Judging from entries from club members, it would seem that October has not been a particularly good month for fishing. My guess is that weather played a large role in that. Anyone that planned to fish any large body of water had to wait out a ten-day northeaster, a result of a coastal low pressure that started the last week of September. This, coupled with the higher tides around the full moon, caused flooding in many areas. Vir-

ginia was spared much of the rain that fell to our south but we got our customary State Fair deluge. Given the high water and soaked ground, I think we were all very fortunate that Hurricane Joaquin stayed well offshore because if it had come ashore or passed near our coast, we would have experienced some historic damage.

I went to Harkers Island, NC, to chase False Albacore (Little Tunny) the last week of September and watched 12 inches of rain fall the first three days of my visit. We got into the ocean for three days after the rain, but fishing was poor. There were few fish, and they were on very small, almost microscopic, bait which made for very challenging fishing.

I have heard the good fishermen there say that nothing ruins the fall run of Albacore like a hurricane, which flushes all of the bait at once out of the Core, Bogue, and Back Sounds into the ocean, and the fish never really show back up. While we avoided a named hurricane, I would say a ten-day northeaster and the tremendous amount of rain they had could have greatly affected this year's Albacore run. Fishing there should be peaking now, but it remains very spotty. I plan to go and try them again and hope that I am wrong with my weather/ bait hypothesis. As I have always said, if you really understood all of this stuff, fishing would not be near as much fun.
