## NO JULY MEMBERSHIP MEETING

### VAC Angling Rules Questions?

Do you have a question concerning angling rules? If so, email your questions to Fred Cousins ([cousinsf1@verizon.net](mailto:cousinsf1@verizon.net)). Fred will address questions during the next general membership meeting.

### HELP WANTED

Newsletter Position – Someone to help with the “Angler” newsletter, no experience needed.

Contact Carter Clevinger ([carter.clevinger@dominionenergy.com](mailto:carter.clevinger@dominionenergy.com)) if interested.

### How to Join a Zoom Meeting

Email link:

1. You will receive an email invitation from the meeting host
2. Click on the link in the email (join via PC, Mac, iOS or Android)
3. You will be directed to the meeting

### For Scale Certification, Please Contact:

Larry Allen at: (804)781-0907 (H), (804)241-3706 (C) or [allenhouse75@comcast.net](mailto:allenhouse75@comcast.net)

Ryan Noland at: (804)658-1955 (H), (894)896-4178 (C) or [ryan.n.noland@usa.dupont.com](mailto:ryan.n.noland@usa.dupont.com)

Please remember to be sure your scales are in working order, the barrels are oil free, and are placed in a Zip-Loc type re-sealable plastic bag with your name written on the outside.

**Snakehead Fishing**  
**Rich McDaniel**

The invasive Snakehead appeared about 10 years ago in the shallow creeks and marshes around the pickerel grass on the Potomac river. They are a very visible target in the shallow water. Although the thicker grasses that grow in July make fishing rather difficult, Rich prefers fishing the outgoing tide as it brings the snakeheads out of the thicker grass. Even though Snakehead fishing has not been as good this year as in past years, Rich thinks the pressure from the bow fisherman is the reason.

Rich's Snakehead Secrets:

- Favorite Lure – Black & Blue chatter bait with a trailer.
- Cast deep into the grass.
- Sight fish for them in the shallows.
- Look for the mud trails moving out of the shallows.
- He doesn't find the frog lure as effective.
- He prefers 16lb test mono, no leader.

**Alabama Bass**  
**Mike Benadski**

The invasive Alabama Spotted Bass are showing up in Virginia waters. They are an aggressive species and a threat to Large Mouth Bass. They will hybridize with Smallmouth Bass and could eliminate the species. They are nearly identical in appearance to the Spotted Bass. Alabama Bass are confirmed to be present in Lake Gaston, Claytor Lake, Philpott Lake, and Martinsville Reservoir. They will grow up to 5.8 to 6lbs.

In North Carolina, Lake Norman has seen the Largemouth Bass population decrease to less than 8% of their former abundance following the introduction of Alabama Bass. Anglers are reminded that it is illegal to transfer fish from lake to lake.

There is an Alabama Bass test, first take a picture of the fish and clip off a thumbnail sized portion of one of the pelvic fins and lastly contact DGIF.

## President's Message

July 2020

Another month is whizzing by and again we rely on the online platform ZOOM to meet virtually. Our last meeting, the BOD meeting on July 14, 2020, was an online meeting. None of us know what is right regarding the Covid, and when we'll be able to meet in person. We all have different views and we all must make our own decisions when it comes to meeting in person. I believe when it comes to meeting in person, we need to continue to wait and see how things play out for better or worse. More importantly, I'd like to know what you are thinking regarding our virtual meetings and when we should meet in person. Your feedback on how the VAC should proceed with our meetings would be greatly appreciated. Email your comments to [discoverthejames@gmail.com](mailto:discoverthejames@gmail.com).

Regarding meeting face to face ... it is something most if not all of us are in need of. I believe an outdoor space could provide an opportune space to meet at some point this Fall, perhaps in September. An outdoor VAC gathering would be a good way to break the ice. While there are always options, initially, I believe the recently renovated Lily Pad at Osborne Landing/Kingsland Reach Marina might provide the parking and the space needed for 20-35 members to meet up in an outdoor venue.

In August we'll have another virtual meeting and then in September, we can, possibly, have a little get together outside and see each other face to face. There will not be a speaker, but a fellowship opportunity. Look for more on the potential for this in the next newsletter, or e-cast.

The BOD recently voted to become a member of the Virginia Saltwater Sportsman Association (VSSA). One of the benefits of joining the VSSA is the option of appointing a VAC member to their Board of Directors. The VSSA Board meets at the EXACT same time as our Board meetings (the second Tuesday of the month at 7:00pm). They meet virtually, online so no travel would be necessary, just a passion to be involved and report back to the VAC. The Virginia Anglers Club has been a valued member in the angling conservation and legislation world in Virginia for many decades, and this is a perfect way to become more involved once again. If interested, please contact me. To find out more information on the VSSA, [click here. http://joinvssa.org](http://joinvssa.org)

In other BOD notes, Buddy Noland informed the Board that the Annual Cape Hatteras Surf Tournament has been cancelled for 2020 and the Board voted to allow the organizers to hold our money for the 2021 since it was already budgeted. Eric Webster updated the website with two Zoom programs, Stuart Lee's talk on Speckled Trout and Rich McDaniel's talk on snakehead fishing. Go to the members side of the website and click the Video's link.

I hope everyone is safe and healthy and able to get out, make a few casts, and catch a few fish. Until next month, take care and happy fishing.

Mike Ostrander  
President, Virginia Anglers Club

## June Small River Wade Expedition Report

### Mike Ostrander

On Saturday, June 27, nine members of the VAC met for the Small River Wade Fishing Expedition on a local small river. The shaded banks and cool river water provided comfortable relief from the heating day, making for a perfect early summer, fishing destination. This tributary of the York River can produce a day

where one can catch ten species of fish, or more. Generally, the bass fishing is pretty good, but on this day, the river was a bit stained and panfish, carp and catfish played the bigger role.

If I am correct, between the anglers, the following species were caught: largemouth bass, smallmouth bass, spotted bass, channel catfish, blue catfish, flathead catfish, common carp, grass carp, bluegill, green sunfish, redbreast sunfish, crappie, white perch, striped bass, for a total of fourteen species ... and if I'm not forgetting anything, I'm sure a long-eared sunfish and pumpkinseed sunfish were also caught raising the species count a couple more.

Five to thirteen pound common carp offered the greatest challenge and fun, in my opinion, especially on six pound line. The larger carp would take great runs up and down river, sometimes 30 yards or more, it seemed, in the river small enough to be a creek. Luckily, as the larger carp moved close to the downed trees, they would back off and move to open water. The highlight of the day had to be Jacob Nixon's 34 pound grass carp. As soon as the fish was hooked, it breached the river's surface and those who saw it knew immediately it was a giant grass carp! This river being little more than a big, deep creek and Jacob landed this massive grass carp without breaking off in the structure along both sides of the river the fish could have easily muscled into.

While we had private access to a spot on this river, it does have at least one public access point, upriver. We fished near Kings Dominion a handful of miles before it joins with the South Anna River to form the Pamunkey River. Can you guess the name of the river? I am not allowed to post the name of this river publicly, as there are passionate ghosts who fish this river and if it were to be written here, they would come out late one night and break the fishing pole I used in half. It's a gem ... give it a shot sometime and if you fish it, don't write or share it by name!

**June Small River Wade Expedition**

## Fish of the Month (June)

### Freshwater (points)

R Hart  
Catfish, Channel 8lbs 8oz  
4-Gen 202pts.

### Saltwater (points)

BL Noland  
Pompano, Common 4lbs 5oz  
Surf 431pts

### Freshwater (weight)

R Hart  
Catfish, Channel  
8lbs 8oz

### Saltwater (weight)

C Clevinger  
Drum, Red  
44 pounds

## PROGRAMS

Listed below are the ZOOM video links from previous membership meetings

Snakehead by VAC Member Richmond McDaniel: <https://drive.google.com/file/d/1J4SOfk5RwcJHUyPwG2lgchDjYRinTG6f/view?usp=sharing>

Speckled Trout by VAC Master Angler Stuart Lee: [https://drive.google.com/file/d/1c\\_DQyKkn6TQz-CA1XIlfdA4PkCUbx5ic/view?usp=sharing](https://drive.google.com/file/d/1c_DQyKkn6TQz-CA1XIlfdA4PkCUbx5ic/view?usp=sharing)

## EXPEDITIONS

### Small Boat – Kayak – Wade fishing Expedition at Mill Creek on September 12th

The expedition will take place in Hampton Va. with target species being Speckled Trout. More details will be coming soon.

**VAC NEW MEMBER**

I am pleased to announce Brent Boshier as our newest member to VAC. Brent has been fishing (fresh and salt) since the time he could walk. As a child, this passion grew from bank fishing local farm ponds.

As an adult, Brent gives chase to his pursuit with his 18-foot flat bottom boat or (oftentimes) his fishing kayak. Brent truly loves catching all kinds of fish species, Strippers, Flounders, Speckled Trout, Puppy Drum, Cobia, Large Mouth Bass, Small Mouth Bass, Crappie, and Trout to name a few. Please join me in welcoming Brent to the Virginia Anglers Club.

**VAC MEMBER PHOTOS**

# FOR SALE

I have a 10wt Sage fly rod with reel and line that I bought new in 2009, and I will never use them. I test/practiced casted with them on the lawn a few times when new, but I never used them. They have never been on/in water. This, they are in absolutely new condition. They have been stored in a closet this entire time, and have no mold, dirt, or any such. In the following paragraphs I will describe the individual items.

The rod is a Sage Xi 2, 1090-4, #10 line, 9'0", 4 1/2 oz. I bought it from Cabela's for \$532.50.

The reel is a Ross Momentum GLD 6. I bought it from Cabela's for \$275. I have the original brand-new condition box with warranty card, etc.

The line is Scientific Anglers Mastery Series Quad Tip Saltwater, WF-10-F/S Green. The tips are as follows. 15' AST Floating. 15' Type I clear tip (1.5 - 2 ips). 15' Type III Wet Tip (3-5 ips). 15' Type V Wet Tip (6-8 ips). The line to tip connections are built in loop to loop. It has a "breathable mesh quad compartment wallet." I have the original box with spool in it. I bought the line, tips, and wallet as a one item set, from Cabela's for \$139.95.

Contact Fred Cousins for more information.
